ZYTO offers powerful biocommunication tools to help you and your team in 3 important areas:

**CONFIDENCE**

Whether you are just beginning or are a seasoned veteran, ZYTO provides you with personalized information in each scan. Because ZYTO technology uses the unique biological coherence of each individual, you can be confident in the results.

Most people who receive a scan naturally have an interest in purchasing products according to their biological coherence.

Additionally, ZYTO reports provide quick access to product descriptions, making you look like a pro.

People tend to remember their ZYTO scan experience and are usually willing to share their results with friends and family. Because everyone wants to learn what supplements are most coherent for their body, attracting potential customers and bringing current customers back for a follow-up is natural and easy.

**REVENUE**

Helping your business partners get a nice paycheck is a satisfying and rewarding experience. The sooner a new recruit is able to make money, the more committed they become to your business.

ZYTO helps you generate revenue in two ways:

- Clients who receive a ZYTO scan commonly buy the products that are indicated.
- Potential new business partners are attracted to the simplicity and effectiveness of your scanning business model.

ZYTO technology helps you and your team generate revenue quickly and helps you progress through the compensation levels towards greater revenue.

**REPLICATION**

Discover the model for success and replicate it throughout your organization. This is a key to success for every successful network marketer, and it’s never been easier.

The ZYTO software is easy to learn—you can teach it to others in a matter of minutes. Even a complex product line can be managed by a novice. By using ZYTO scanning as your foundation, you’ll find that replicating your success is easy and effective.

“I made back the money I spent buying the ZYTO system within three weeks of getting it. The amazing part... I did it while on vacation.”

—Annette D. Eden, NY
